Blake watching the sand disappear from the sand table.

Preschool Family Night

We are solidifying the date for a preschool family night in February. The children have been learning about how to stay healthy. We have talked about how to care for our noses, how not to spread germs, and how to eat healthy foods. We have learned the five food groups and know examples of each. The children used that knowledge to make a menu and are planning to serve their families a meal at family night. This was so much fun last year and we look forward to shopping for our meal. We also are going on a field trip to the Deshler Clinic in early February to learn more about staying healthy, as well as getting our teeth checked out by a local hygienist. Healthy kids make happy kids!

“Carpet Time” led by the boys and a mothering session for the girls.

*Proposed meal: Chicken nuggets, french fries, corn, oranges and bananas, french bread and milk.*

Gavin, Heston and Blake watching cars race down a block run and hit a looped board for amazing twists and turns.

**Leprosy has invaded – unclean, unclean!**

Hopefully you can notice all of the red dots on our class. We are learning about how much Jesus cares for everyone, including us and our families. As we finish learning about His miracles, we start to focus on prayer and specifically the Lord’s Prayer. We will talk about Jesus our Shepherd before beginning Lenten and Easter studies.

*Thank you!*

We want to thank Pastor Rich for joining us in our classroom once a week. What a blessing to have him with us, sharing the Love of Christ.

We also want to thank everyone for the Thrivent Choice dollars given to the preschool. We are receiving a Tilt and Turn, which will improve our balance and coordination, and a Stomp and Launch, which teaches us to jump!
